Welcome

11th Mansoura Ophthalmology Center Conference

On behalf of the Ophthalmology Department at Mansoura University's Faculty of Medicine, we are delighted to extend a warm welcome to the **11th Mansoura Ophthalmology Center Conference**, taking place on **July 15th -17th** at the Mansoura Ophthalmic Center (MOC).

As a distinguished institution under Mansoura University, Egypt, MOC has earned global recognition for its leadership in ophthalmic education, research, and patient care, consistently advancing innovation in eye health.

Join us for a day of intellectual stimulation, innovation, and camaraderie as we collectively advance the frontiers of ophthalmology. Let's shape the future of glaucoma management together!

Warm regards,
The Organizing Committee

Polyfresh

NIGHT OINTMENT

White soft Paraffin 940 mg

Liquid Paraffin 30 mg

Lanolin Oil 30 mg

Lubricating Eye Ointment

FOR HEALTHCARE PROFESSIONALS ONLY

Knight OF night

When should it be used? Polyfresh Night Ointment provides strong soothing night-time relief of dry eye sensations, as it acts as a barrier against moisture loss, ideal for use at bedtime. Polyfresh Night Ointment provides soothing relief from the symptoms of dry eyes, such as soreness, irritation or a gritty sensation. Dry eye symptoms occur as a result of ocular surface disorders that can be caused by a number of different reasons where the normal tears are either of poor quality or produced in too little quantity to keep the eye sufficiently moist. There is no age restriction for using Polyfresh Night Ointment. Polyfresh Night Ointment may be used during pregnancy and breast-feeding.

Precautions and warnings: • Do not use if the cap of the tube is broken. Do not use if you are allergic to lanolin oils or any of the ingredients. Do not use with contact lenses. Do not share Polyfresh Night Ointment with any other person. Polyfresh Night Ointment can cause a transient mild burning sensation and or blurring of vision after application. Wait until your vision is clear before driving or using machinery. Do not use after the expiry date shown on the carton or printed on the crimp of the tube. Store between 2-30 °C. Discard the contents 30 days after first opening. Keep out of the reach and sight of children. External ocular use only, do not swallow. Dispose of the used tube according to your local waste management regulations. Special precautions for storage: store at a temperature between 2 and 30 °C, in a cool, dry place, and after opening, to be used within 30 days

Always read the full prescribing information
